EPOS @ESA’s upcoming Living Planet Symposium 2019 in Milan, Italy, 13 - 17 May 2019

Date:
Tuesday, April 30, 2019 - 14:15

The European Space Agency’s 2019 Living Planet Symposium will take place on 13-17 May 2019 in Milan, Italy.

The Symposium is organised with the support of the Italian Space Agency.

This symposium focuses on how Earth Observation contributes to science and society, and how disruptive technologies and actors are changing the traditional Earth Observation landscape, which is also creating new opportunities for public and private sector interactions.

On Wednesday 15th May 2019, h. 09:45 Michele Manunta, researcher at CNR IREA in Naples (IT) will present “EPOS Thematic Core Service Satellite Data: the Contribution of Sentinel Missions to Establish a Comprehensive Multidisciplinary Research Platform for Solid Earth Sciences” . More information about the programme here.
