

[EPOS SP / AdriaArray / ORFEUS international remote workshop, 2-6 November 2020, last days to register!](#)

Date:

Friday, October 23, 2020 - 10:15

The first EPOS SP / AdriaArray workshop to keep promoting the AdriaArray science plan, will be organized virtually 2-6 November 2020.

The meeting integrates:

- the ORFEUS annual observatory meeting & workshop focused on: “Permanent Seismic Networks in Southeastern Europe”;
- the first international AdriaArray workshop organised within the EPOS SP project: “Understanding Active Deformation of the Adriatic Plate and its Margins: AdriaArray - Science, Infrastructure, & Community Building”;
- other EPOS SP training & outreach events.

The [preliminary synoptic program](#) is available here.

Please [register as soon as possible here](#).

The number of participants is limited to 200. The registration will close as soon as the maximum capacity is reached, and not later than October 26th.

The access details to join the workshops will be provided by email to the registered participants.
