

EPOS @ ERIC Forum & ACCELERATE project event: Planning for Sustainability of Research Infrastructures, 25 May 2021

Date:  
Wednesday, May 19, 2021 - 11:15

On May 25<sup>th</sup>, 2021 the [ERIC Forum Implementation Project](#) and the ACCELERATE project will organise the event “Planning for Sustainability of Research Infrastructures”.

The event will highlight the different policy views of the Research Infrastructures (RIs) and the operational as well as planning instruments proposed by European projects to demonstrate various expectations, requirements and approaches in planning for the medium to long-term sustainability of the RIs.

Massimo Cocco, invited to attend the event as one of the panelists, will present the EPOS sustainability Planning.

More information about the programme can be found [here](#).
