

Nov 22

[GEO Week 2021, 23 to 26 November 2021](#)

Monday, November 22, 2021 to Friday, November 26, 2021

Location:

virtual conferences

The [Group on Earth Observations](#) will organise the "GEO Week 2021" as online events from 22 until 26 November 2021.

During the week the GEO-17 Plenary will be organised from 23 to 26 November, together with side events and exhibitions. The GEO Plenary is the annual meeting of GEO' (Group of Earth Observations) s 113 Member Countries and 135 Participating Organizations which work together to develop and implement projects and initiatives that solve global problems.

EPOS is a participating organization in GEO and it is effectively contributing to GEO by sharing the mission of fostering the sustainability of research infrastructures, interoperability and open science.

On Monday 22 November the 56th Executive Committee will take place as a closed meeting.

More information about the timing of the sessions can be found on the [Week at Glance here](#).
