EPOS @ the EGU 2018 General Assembly in Vienna, 8 - 13 April 2018

The EPOS Newsletter issue 04
October 2017 | Highlights 01

EPOS will be present at the European Geosciences Union General Assembly 2018, from the 8th to the 13th of April 2018, at the Austria Centre Vienna (ACV) in Vienna, Austria.

EPOS is organising a session and an exhibition booth to enhance EPOS visibility during this event. EPOS session “Integrating data and services in solid Earth sciences” (ESSI2.9), aims to discuss the integration of existing community specific data infrastructures and data services into a multidisciplinary platform in the domain of solid Earth sciences to be accessible to a wide range of users and stakeholders. The session also aims at emphasizing the importance of global data infrastructures in solid Earth sciences.

EPOS is looking for contributions from scientists, research infrastructures, e-Infrastructure providers, ICT experts, managers, and communicators involved in activities for implementing data and service provision of relevance for solid Earth science and therefore, contributions from key international initiatives. The objective is also to share strategies and visions to tackle technological and scientific challenges.

The abstract submission deadline is the 10th of January 2018, 13:00 CET.

The meeting programme will be available on 20 February 2018.

In the exhibition booth, EPOS information brochures, flyers, and gadgets will be available. Moreover, “demonstrator sessions” made by members of the EPOS community will be organized to present their Research Infrastructure, services or other specific topic.

Further information about the programme and about other relevant sessions of interest for EPOS will be circulated soon. Keep tuned!
